

Course title			ECTS code	
Technologia informacyjna/Information technology			7.2.0524	
Name of unit administrating st	udy			
Faculty of Chemistry				
Studies				
Field of study	Туре		Form	
Environmental Protection	Bachelor F		Full-time studies	
Teaching staff Dr Magdalena Ślusarz				
Forms of classes, the realization		ECTS 2		
 A. Forms of classes, in accoregulations laboratory classes B. The realization of activity on- line classes, in-class I C. Number of hours	ctor's	classes - 30 h tutorial classes – 5 h student's own work – 15 h Total: 50 h - 2 ECTS		
The academic cycle First year, winter semester				
Type of course obligatory		Language of instruction Polish		
Teaching methods Individual work of the student in the computer laboratory under the teacher's supervision		Form and method of assessment and basic criteria for evaluation or examination requirements		
		A. Final evaluation, in accordance with the UG study regulations course completion (with a grade)		
		B. Assessment methods kolokwium		
		C. The basic criteria for evaluation or exam requirements		
		Final test; passed at least 51% of the maximum score, according to the Study Regulations. Creating a multimedia presentation on a given topic		
Required courses and introductory requirements None Aims of education				

• Introduction into the Unix-based operating systems. Familiarizing the students with the basic tools for: file operations, text editing, communication with remote system, changing of file attributes, graphics editing, the free search for the information on the resources of the WWW and e-mail handling.

• Demonstration of molecular graphics programs (bioinformatics and visualization of the molecules) and tools for two-

dimensional chemical compounds drawing.

• Familiarizing the students with Educational Portal of the University of Gdańsk; e-learning courses handling.

Course contents

Laboratory issues: Linux operating system – accounts, passwords, safety, file and directory operations; text editors, logging into the remote system; using WWW resources (e-mail, web browsers, communicators); office suite – word processor, spreadsheet and charts, presentations; tools for drawing and visualization of the molecule structures; graphics editing; creating web pages in the CMS environment.

Bibliography of literature

- A. Literature required to pass the course Monographic works provided by assistants leading classes
 B. Extracurricular readings
